Civil registration is one of the most important ones among the various public services that LSGIs offer.

Information Kerala Mission (IKM) came into existence in June 1999. Subsequently the state government decided that software applications developed by IKM should be deployed in LSGIs. IKM started software development based on an extensive system study conducted with active stakeholder participation. Therefore, the software application 'Sevana' that IKM developed for birth-death-marriage registrations is comprehensive and is strictly in accordance with the requirements of the Act and Rules.

Sevana application suite comprises the following modules.

- i) Sevana Past Data Entry module.
- ii) Sevana Hospital Kiosk module.
- iii) Sevana Local Body Kiosk module.
- iv) Sevana Local Body module.
- v) Sevana District module
- vi) Sevana State module.
- Vii) sevana web module
- Viii) Sevana Hindu Marriage module
- iX) Sevana Common marriage module

Besides this additional hospitals are ready for implementation at Palakkad, Mavelikkara, Parathod , Kunnamkulam etc.

b.Number of Registrations

Average monthly Registrations through Kiosk was to the tune of 33000 during 2010. Total registrations done through kiosk during the year 2009-10 were 3.58 lakhs compared to 3.23 lakhs in 2008-09.Registrations since inception till 31-03-10 were 11.87 lakhs. and up to 30-6-10 the total was 12.63 lakhs.

2. Counter provided at Alappuzha Medical college in the new location at Ambalapuzha North GP.
3. One system provided to Kannur cantonment to start Sevana and Hospital kiosk.
4. Action to provide certificates through internet service -state level inauguration done at Thiruvananthapuram corporation on 5-8-2010 by Hon. Chief Minister.
5. The details of Registrations done in the state from 1-1-10 to 30-6-10 collected from all local bodies and consolidated it.
6. Action to compile data on medical certification of cause of death reported from 5 medical colleges through Sevana in association with medical college Thiruvananthapuram nearing completion.
7. A public opinion survey conducted and results tabulated.
8. Action initiated to cover Sevana in all registration units and declare state as fully covered in respect of Birth death Registrations through Sevana. This was almost achieved through a special drive in July 2010.

5. Findings of Opinion survey.

The survey covered 1000 persons from selected Hospitals in July 2010.

The results of the survey is summarised as follows.

1. 92 percent of the schedule canvassed relates to Birth survey.
2. 94 percent reported that they had only 2 visits the kiosk for the service. Six percent had 3 Visits. The number reported 3 or more visits for the purpose is negligible.
3. As regards time taken for service 22 percent reported that they got certificate with in 12 hours. 28 percent got certificate with in 24 hours. That is 50 percent got certificate with in 24 hours of occurrence of event. 29 percent got certificate with in 48 hours and 14 percent with in one week. In case of 8 percent it took more than one week. This requires rectification action.
4. The information source regarding kiosk was Hospital authorities in respect of 43 percent. 8 percent got information from Board. 38 percent had prior information. 8 percent became aware only when they got verification report. It is a welcome sign that 38 percent had prior information, however this also points out need for putting up of more information boards.
5. 8 percent says they had not verified printout. This needs corrective action. In 42 percent cases there was no error. However in case of 38 percent they were able to correct minor mistakes, 8 percent were able to give full name in reporting form, and 4 percent corrected serious mistakes crept in reporting form. This is the real benefit of hospital kiosk and due to this near cent percent reported that they got error free section 12 certificate.
6. 59 percent reported that service of hospital kiosk is very satisfactory and 40 reported satisfaction over the service. Almost same is the percent regarding the behaviour of Kiosk staff as well as regarding counter atmosphere. The main problem reported is regarding lack of space in the counter.

B. Findings of the survey on registrations of Births, Deaths and Marriages from 01.01.2010 to 30.06.2010

IKM had developed and deployed Sevana Civil Registration Application suit for the computerisation of the Civil Registrations –Death -Birth –Still Birth, Marriages under Hindu Marriage Registration Act 1969 and Registration of Marriage (common) Rule. The application is capable of handling all registrations as per rules and regulations, at the same time bringing benefit of e- governance to the masses through efficient, transparent and speedy service delivery system. It had bagged CSI/CTS award in 2002 and E-governance award from Government of INDIA as best citizen centred software application in 2009 bagged bronze medal in that category.

Sevana application was deployed in all Corporations and Municipalities by establishing dedicated Jana Sevana Kendra's during 2004 or 2005 itself and so for the last 5 years registrations are done through Sevana application and is functioning fairly well. This was achieved through the special drive done in 2004-2005. As regards Grama Panchayats (GPs) the initial deployment was in a slow pace mainly due to shortage of infrastructure. But by the end of 2009 IKM were able to cover almost all Grama Panchayats also. Our objective is to make use of Sevana application for civil registration process, which will lead Kerala to achieve 100 percent Civil Registration (current) through Electronic Process.

In order to have an assessment of coverage of Sevana and also to have an idea on number of marriage registrations in the state IKM conducted a survey using services of the field staff during July 2010. The results obtained from the survey are summarised below.

1. Total registrations of Birth – Death & Still Birth done in the state for 01.01.2010 to 30.06.2010 is 378624. (Birth 267920, Death 109505, Still Birth 1199). Average monthly registrations in the state are 63104. (Table-3)

C. Recommendations

1. Hospital meetings are to be conducted at LSG level.
2. State level review to be conducted by the Chief Registrar.
3. Implementation of remaining feasible places to be completed to cover 90 percent of Birth registrations through Hospital kiosk.
4. LSG should conduct data audit of Hospital kiosk data to check quality and to ensure full coverage.
5. More instruction boards are to be put in hospitals preferably in waiting halls and Gynaecology wards.
6. Technical assistants of IKM should have a watchful eye and guard the applications from becoming off line.
7. Sevana application to be made on line in all LSGIs and should not be allowed to become offline – necessary orders are to be issued by the Chief Registrar.
- 8 From Government orders are to be issued making the IKM applications compulsory for– SEVANA –Civil Registration, SEVANA pension etc.
9. District module and State Modules of SEVANA to be finalised and deployed.
10. Now marriages are Registered only under Common Marriage Rules -Average monthly registrations is to the tune of 37000. SEVANA covers only –6% of it. A campaign to be undertaken to extent this to all localbodies.
